Jaclyn-

This is a great centers activity for students to practice their skills!

Madison-

My summer school students loved this! It was great engagement with the students and great practice of their multiplication and division facts.

Wendolyn-

I used this during Summer School via distance learning. Students LOVED playing Bingo over Zoom. They were engaged and having a great time. I had much better attendance on the days I scheduled Bingo! Great practice with addition and subtraction for multi-digit numbers.
